Other: REST API, GraphQL, Agile/Scrum

Experience

Corot Systems Pvt. Ltd.

Full Stack Engineer

Gorakhpur, India

Nov 2022 – Present

- Started as a Full Stack Intern and transitioned to a full-time role, contributing to both client and internal platforms.
- Built responsive websites in WordPress and vanilla JS, improving engagement by 20% and delivering 15+ client deliverables.
- Led frontend architecture of HRMS and ERP systems using React, Redux, and TypeScript for 5,000+ users.
- Implemented cross-platform modules with React Native and integrated REST APIs for smooth communication.
- Automated deployments using GitHub Actions and AWS EC2/S3, reducing manual errors.
- Optimized backend APIs and PostgreSQL queries, cutting response time by 35%.
- Explored **Backstage Developer Portal** to standardize service documentation and discovery.
- Collaborated on micro frontend patterns, improving scalability and modularity across services.
- Integrated observability dashboards for monitoring system health and improving reliability.

Champa Chaiwali

Web Developer

Gurgaon, India

Jul 2022 – Oct 2022

- Designed and maintained company website for showcasing offers and products.
- Implemented SEO and performance optimization to improve visibility and site speed.
- Integrated secure payment gateways and optimized checkout experience.
- Developed admin tools for managing daily sales, stock, and feedback.

Robustresult Pvt. Ltd.

Full Stack Intern

Remote

Sep 2021 – Nov 2021

- Developed a book recommendation platform tailored to user preferences.
- Built UI components with HTML, CSS, JavaScript, and Bootstrap.
- Designed MySQL schemas and implemented PHP-based backend logic.

Projects

AI Tutor

Python, TypeScript, React, ChromaDB, SLLM, GroqAPI

GitHub

- Developed an AI-powered tutoring system for real-time Q&A using **GroqAPI** and **ChromaDB**.
- Frontend built with React + TypeScript; backend microservices in Python for LLM inference.

Vidyut HR - Employee Management Platform

React, Java, PostgreSQL, Docker, Kubernetes, AWS

Live Project

- Designed employee workflows (attendance, payroll, performance).
- Implemented RBAC and database encryption for data security.
- Containerized and deployed services using Docker, Kubernetes, and AWS.

MedhaPro - School Management Solution

React, Java, PostgreSQL, Docker, Kubernetes, AWS

Live Project

- Developed modules for attendance, transport, and fee management.
- Integrated backend APIs for seamless data synchronization.
- Deployed scalable solution on AWS infrastructure.

BharatFLP (Lecture Portal)

React, Node.js, MongoDB

Live Project

- Built an educational lecture portal used by Christ University for commerce classes.
- Implemented secure user authentication and real-time course access.

Exam Manager

React, Material-UI

- Developed an exam management tool for instructors and students.
- Designed dashboards for results, MCQs, and instructor panels.

React Web

React, Redux

GitHub

- Built a complete e-commerce web app with product listing and API integration.

Covid Lister

React

GitHub

- Created a task lister to show real-time COVID-19 case data using Fetch API.

Education

Dr. A.P.J. Abdul Kalam Technical University (AKTU)

Bachelor of Technology in Computer Science; CGPA: 8.17

Uttar Pradesh, India

Aug 2018 - May 2022
